Project: <https://job-tracker-app-sigma-six.vercel.app/>

OBJECTIVE

Frontend / React Developer Intern seeking an internship to apply React, JavaScript, Tailwind CSS, and Firebase to build real-world web applications and improve product-focused development skills.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js
 - **UI Styling:** Tailwind CSS
 - **Backend / Database:** Firebase Authentication, Firestore (CRUD)
 - **Tools:** Git, GitHub
 - **Core Concepts:** Component-based UI, state handling, responsive design, authentication, database integration
-

PROJECTS

Job Tracker App | React, Tailwind CSS, Firebase (Auth + Firestore)

Live: <https://job-tracker-app-sigma-six.vercel.app/>

GitHub: <https://github.com/vaibhavcodes09-dev>

- Built a job application tracker web app to manage job applications with status-based workflow.
 - Implemented secure login/signup using **Firebase Authentication**.
 - Integrated **Firestore** to store and manage job entries using full **CRUD operations**.
 - Developed responsive and clean UI using **Tailwind CSS**.
 - Added job status categorization such as **Applied, Interviewed, Selected, Rejected**.
-

EDUCATION

Bachelor of Computer Applications (BCA) — FS University

2024 – 2027 | Currently: Semester 4

ADDITIONAL INFORMATION

- Open to internship opportunities (On-site / Remote / Relocation)
- Actively building projects and strengthening React + frontend development skills
